

PROJECT UPDATE

April 2019

Hwy. 70 – Sevier St. (Widening)

CA0601

I-30 Construction Progress

Construction To Begin End of April

By the end of April, construction is estimated to begin and will continue the widening of Interstate 30 in Saline County to six lanes. This ARDOT Connecting Arkansas Program project widens 5.5 miles of I-30 in Saline County, between the interchange with U.S. Highway 70 (Exit 111) and Sevier Street in Benton (Exit 116). This includes improvements at the Highway 67 interchange (Exit 114).

Maintenance of Traffic During Construction –

- Construction begins with temporary widening in various locations. Next, eastbound and westbound traffic will shift toward the outside lanes to begin construction within the median.
- By mid 2020, eastbound traffic will move onto new pavement in the median. Concrete barriers will be on both sides for eastbound traffic.
- By mid 2021, eastbound traffic will move onto completed eastbound pavement, and the westbound traffic will move into the median.
- By mid 2022, westbound traffic will move onto completed westbound pavement to allow continued construction in the median.

Note: This preliminary schedule is subject to change during construction progress

Types of Lane Closures To Expect

| Type | Roadway | Summary | Days and Times |
|--------------|---|---|--|
| Lanes Closed | I-30 eastbound and westbound | Traffic reduced to one open lane in each direction within work zone | Eastbound Nights, 9:00 pm - 5:00 am Westbound Nights, 10:00 pm - 6:00 am |
| Lanes Closed | 1. Highway 70 2. Highway 67 3. W. South St. 4. I-30 Frontage Road (east of Saline River) | Traffic reduced to one open lane | Nights, 9:00 pm - 6:00 am |
| Lanes Closed | I-30 eastbound and westbound | All lanes stopped | On occasion, traffic may be stopped for short intervals, not to exceed 15 minutes, to perform work over interstate lanes |
